407 INTERNATIONAL INC.
NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Period ended June 30, 2020
(in millions of Canadian dollars, except per share amounts)

1. GENERAL INFORMATION

407 International Inc. and its subsidiaries (the “Company”) are privately-held companies incorporated under the laws of Ontario, Canada and continued under the laws of Canada. The Company’s address and principal place of business is 6300 Steeles Avenue West, Woodbridge, Ontario, L4H 1J1, Canada. The principal business of the Company is the ownership of 407 ETR Concession Company Limited (“407 ETR”) and, through 407 ETR, the operation, maintenance and management of Highway 407 ETR (the “Highway”) along with the construction of extensions and certain deferred interchanges, lane widenings and additional interchanges under the 99-year Highway 407 Concession and Ground Lease Agreement (the “Concession Agreement”) with the Province of Ontario (the “Province”) dated April 6, 1999. The interim condensed consolidated financial statements of the Company for the three and six month periods ended June 30, 2020 (the “Financial Statements”) were approved by the Board of Directors of the Company (the “Board”) on July 16, 2020.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Statement of compliance and application of new International Financial Reporting Standards (“IFRS”)

The Financial Statements are prepared on a going concern basis and have been presented in millions of Canadian dollars. These Financial Statements have been prepared in accordance with International Accounting Standards 34, Interim Financial Reporting (“IAS 34”) as issued by the International Accounting Standards Board (“IASB”).

The Financial Statements have been prepared using the same accounting policies and methods as were used for the Company’s consolidated financial statements and the notes thereto for the years ended December 31, 2019 and 2018 (the “2019 Annual Financial Statements”). The Financial Statements should be read in conjunction with the 2019 Annual Financial Statements

b) Basis of preparation

The Financial Statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value. Historical cost is based on the fair value of consideration given or received in exchange for assets.

c) Principles of consolidation

The Financial Statements include the accounts of 407 International Inc., consolidated with those of its wholly-owned subsidiaries, 407 ETR, Canadian Tolling Company International Inc. (“Cantoll”), 9665641 Canada Inc. (“9665641 Inc.”) and 11783378 Canada Inc. (“11783378 Inc.”). Cantoll was incorporated in December 2001 to assume ownership of an integrated computerized accounting, billing and customer relationship management system and new transponders, and is responsible for the development of its integrated automation systems and the implementation and management of roadside tolling technologies and back-office systems. 9665641 Inc. was incorporated in March 2016 and 11783378 Inc. was incorporated in December 2019 to assist in the implementation of the Company’s tax planning strategies. All inter-company transactions, balances, revenues and expenses have been eliminated on consolidation.

407 INTERNATIONAL INC.
NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Period ended June 30, 2020
(in millions of Canadian dollars, except per share amounts)

3. KEY SOURCES OF ESTIMATION UNCERTAINTY AND CRITICAL ACCOUNTING JUDGEMENT

The preparation of the Financial Statements in conformity with IFRS requires management of the Company (“Management”) to make certain judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities as at the date of the Financial Statements, the reported amounts of revenues and expenses of the reporting period, as well as disclosures made in the accompanying notes to the Financial Statements. Judgement is commonly used in determining whether a balance or transaction should be recognized in the consolidated financial statements, and estimates and assumptions are more commonly used in determining the measurement of recognized transactions and balances. However, judgements and estimates are often interrelated.

a) Critical Estimates

Toll revenues are recognized on the date trips are taken on the Highway. Certain exit and entrance transactions which are unbilled remain in queues to create the best match to form a complete trip. The unrated toll revenues in the queue are estimated using certain attributes of recently-rated trips which are then applied to the traffic transactions in the queue.

Depreciation of property, plant and equipment is estimated based on projected Vehicle Kilometres Travelled (“VKTs”) and estimated useful lives.

Deferred tax assets arising from the carry forward of unused tax losses and unused tax credits are recognized to the extent that it is probable that future taxable income will be available against which the unused tax losses and unused tax credits can be utilized. Projected taxable income is based on reasonable and prudent operating projections, assumptions and hypotheses. Taxable income is primarily impacted by traffic volume, toll rates, operating and maintenance expenses, and interest income and interest expense. Based on these projections, the Company anticipates that it will generate sufficient taxable income to utilize existing tax losses and tax credits prior to their expiration dates. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and derecognized to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the assets to be utilized in the future.

Senior Bonds, Series 04-A2 is accounted for as a derivative financial instrument and is measured at its fair value. Given that the market for this financial instrument is not active, fair value is established by using a valuation technique that employs the break-even inflation rate (“BEIR”) as a market proxy for future inflation and discounted cash flow analysis. BEIR is highly volatile and may lead to significant non-cash changes in the fair value of Senior Bonds, Series 04-A2 that may not be representative of actual inflation paid or to be paid to the holders of Senior Bonds, Series 04-A2.

Refer to the following notes for further details of other estimates:

Estimate	Note Reference
Provision for doubtful accounts	Note 12 (c)

These estimates and associated assumptions are based on past experience and other factors that are considered relevant and are reviewed on an on-going basis. Actual results could differ materially from these estimates.

3. KEY SOURCES OF ESTIMATION UNCERTAINTY AND CRITICAL ACCOUNTING JUDGEMENT (continued)

b) Judgement

The identification of cash-generating units involves judgement. Cash inflows which are generated from customers' use of Highway 407 ETR are classified as a single cash-generating unit, while the cash inflows which are generated from contract work are classified as a separate cash-generating unit.

The Company has only one reportable segment. All non-current assets are located and revenues are generated in Canada.

4. RESTRICTED CASH AND INVESTMENTS

Pursuant to the Company's Master Trust Indenture (the "Indenture"), the Company established the debt service funds, the operating and maintenance and renewal and replacement funds, and debt service reserve funds, all of which are fully funded with Qualified Investments (as defined in the Indenture). The current portion is expected to become unrestricted within the next twelve months.

Pursuant to an agreement to provide tolling, billing and back-office services relating to Highway 407 (the "Tolling Services Contract"), the Company established a Tolling Services Contract segregated funds account which is funded with cash and cash equivalents.

Restricted cash and investments consist of:

	As at

Senior Bonds

On March 6, 2020, the Company issued \$700.0 of 2.84% Senior Bonds, Series 20-A1.

On May 22, 2020, the Company issued \$350.0 of 1.80% Senior Bonds, Series 20-A2 and \$400.0 of 2.59% Senior Bonds, Series 20-A3.

On June 22, 2020, the Company redeemed all outstanding Senior Bonds, Series 10-A3 for a redemption price of \$413.9 plus accrued interest of \$1.3.

On June 24, 2020, the Company redeemed all outstanding Senior Bonds, Series 99-A5 for a redemption price of \$323.4 plus accrued interest of \$1.0.

Real Return Bonds

As at June 30, 2020, the inflation compensation component of all Senior Bonds Series 99-A6, Series 99-A7 and Series 00-A2 (collectively, the "RRBs") was \$301.9 (2019 - \$407.6).

Credit Facilities

The Company has existing bilateral credit agreements with respect to three revolving credit facilities with Canadian chartered banks in an aggregate amount available to be drawn of \$300.0 (the "Bilateral Credit Facilities").

In February 2019, the Company entered into a separate credit agreement with respect to a syndicated revolving credit facility with four Canadian chartered banks in the principal amount of up to \$500.0 (the "Syndicated Credit Facility" and together with the Bilateral Credit Facilities, the "Credit Facilities"). The Syndicated Credit Facility will be used to refinance existing debt, fund future operating and capital expenditures, interest and tax payments and for general corporate purposes. The obligations under the Syndicated Credit Facility rank pari passu with the senior debt of the Company. The Company issued to the Canadian chartered banks senior pledged bonds with an aggregate principal amount of \$600.0, resulting in the indebtedness arising from the Syndicated Credit Facility being secured under the Indenture.

10. LONG-TERM DEBT (continued)

The Syndicated Credit Facility bears interest at floating rates based, at the option of the Company, on the prime rate for Canadian dollar loans, and the interbank bid rate for Canadian dollar bankers' acceptances, plus an applicable fixed margin. The Company paid an upfront fee on the Syndicated Credit Facility and is also obligated to pay a commitment fee to the banks, calculated on the undrawn portion of the Syndicated Credit Facility.

The Company may draw on the Syndicated Credit Facility until the maturity date. The maturity date is February 11, 2024. The Company may also repay a portion or all of the obligations owing under the Syndicated Credit Facility at any time during the term.

As at June 30, 2020, the Company had drawn \$600.0 (2019 – \$25.0) under the Credit Facilities and has classified any drawn amount under current liabilities. On July 3, 2020, the Company repaid the \$600.0 million outstanding under its Credit Facilities.

Current Portion of Long-Term Debt

As at June 30, 2020, the current portion of long-term debt of \$624.7 (2019 - \$49.3) includes \$600.0 Credit Facilities (2019 - \$25.0), \$6.2 Senior Bonds, Series 99-A3 (2019 - \$6.1), \$10.9 Senior Bonds, Series 00-A2 (2019 - \$10.4), and \$7.6 Senior Bonds, Series 04-A2 (2019 - \$7.8).

11. LEASE OBLIGATIONS

The Company entered into leases for the use of snow clearing equipment, computer equipment, office equipment and vehicles. Finance leases expire on various dates, at which time the Company has the right, but not the obligation, to purchase the equipment.

Minimum lease payments in the aggregate and for the next five years and thereafter are as follows:

12. FINANCIAL INSTRUMENTS

a) Fair Value of Financial Instruments

Current financial assets and liabilities

Financial assets and liabilities classified as current are amounts that are expected to be settled within one year. The carrying amounts approximate fair value because of the short-term nature of these instruments.

Non-current restricted cash and investments

The Company compares and uses publicly-available quotations provided by major Canadian financial institutions to determine the fair values. The carrying amounts approximate fair values.

Long-term debt

The fair value of the long-term debt (including the current portion) as at June 30, 2020 was \$12,241.0 (2019 - \$10,443.6) determined using publicly-available quotations provided by a major Canadian financial institution, except for Senior Bonds, Series 04-A2, which was determined by using a valuation technique. These instruments are Level 2.

Senior Bonds, Series 04-A2

Senior Bonds, Series 04-A2 is a derivative financial instrument and is reported at fair value. The fair value of Senior Bonds, Series 04-A2 as at June 30, 2020 was \$153.6 (2019 - \$183.8) which was determined by using a valuation technique which estimated future inflation of 0.8% (2019 - 1.4%) based on the BEIR and applied a nominal discount rate of 2.4% (2019 - 3.0%). During the three and six month periods ended June 30, 2020, the fair value of Senior Bonds, Series 04-A2 decreased by \$6.1 (2019 - increased by \$0.8) due to the change in the Company's corporate spread. As at June 30, 2020, a 10 basis points decrease in the nominal discount rate would increase the fair value of Senior Bonds, Series 04-A2 by approximately \$1.5 (2019 - \$2.0).

Fair value hierarchy

The following table summarizes the fair value hierarchy under which financial instruments are valued.

Level 1 of the fair value hierarchy includes unadjusted quoted prices in active markets for identical assets or liabilities. Level 2 includes inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 includes inputs for the asset or liability that are not based on observable market data.

b) Capital Risk Management

The Company defines its capital as follows:

1. Long-term debt, including the current portion; and
2. Cash and cash equivalents.

The Company's objectives when managing capital are to:

1. Maintain a capital structure and an appropriate credit rating that provides financing options to the Company when a financing or a refinancing need arises to ensure access to capital, on commercially reasonable terms, without exceeding its debt capacity or resulting in a downgrade to the credit ratings of the existing indebtedness;
2. Maintain financial flexibility in order to preserve its ability to meet financial obligations, including debt servicing payments and dividend payments;
3. Satisfy covenants set out in the Indenture and the indentures supplemental thereto (the "Supplemental Indentures"); and
4. Deploy capital to provide an appropriate investment return to its shareholders.

The Company's financial strategy is designed and formulated to maintain a flexible capital structure consistent with the objectives stated above and to respond to changes in economic conditions. In order to maintain or adjust its capital structure, the Company may issue additional debt, issue debt to replace existing debt with similar or different characteristics, and adjust the amount of dividends paid to shareholders. The Company's financing and refinancing decisions are made on a specific transaction basis and depend upon such factors as the Company's needs, and market and economic conditions at the time of the transaction.

Under the terms of the Indenture and Supplemental Indentures, the Company may not incur additional indebtedness that would result in a downgrade to the credit ratings of certain of its existing indebtedness. The Company may only make interest payments relating to subordinated debt and dividend payments to shareholders upon the satisfaction of certain financial covenants. The Board reviews the level of dividends paid to the Company's shareholders. The Company was in compliance with all its financial covenants as at December 31, 2019 and June 30, 2020.

There were no changes in the Company's approach to capital management during the three and six month periods ended June 30, 2020.

c) Risks Arising from Financial Instruments

Credit Risk

Financial assets that are exposed to credit risk consist primarily of cash and cash equivalents, trade receivables and other, contract assets, amounts due from customer for contract and restricted cash and investments.

The Company is exposed to credit loss in the event of non-performance by counterparties to derivative instruments that have a positive fair value, cash and cash equivalents, short-term investments and restricted cash and investments. The Company manages this risk by dealing with reputable organizations having high-quality credit ratings from independent credit rating agencies. The Board sets exposure limits and these are monitored on an on-going basis.

Concentration of credit risk with respect to trade receivables is minimized due to the millions of accounts comprising the Company's customer base. The amounts disclosed in the statements of financial position are net of the allowance for doubtful accounts and certain amounts that are billed to customers but excluded from revenues in accordance with the Company's revenue recognition policy for toll and fee revenues. The amounts are estimated based on prior experience, anticipated collection strategies and ultimate recovery of balances for which collection is uncertain.

Trade receivables and other are aged as follows:

	As at	As at
	June 30, 2020	December 31, 2019
Unbilled	\$ 49.9	\$ 82.2
0-60 days	34.7	90.5
61-90 days	3.5	10.5
91-120 days	5.2	8.1
121-150 days	7.9	7.8
151+ days	39.5	33.8
Sub total ¹	<u>140.7</u>	<u>232.9</u>
Other ²	17.2	17.6
	<u>\$ 157.9</u>	<u>\$ 250.5</u>

1. Amounts are net of allowance for doubtful accounts and certain amounts that were billed to customers but excluded from revenues in accordance with revenue recognition policy for toll and fee revenues and includes contract receivable invoiced to customer upon reaching contract milestone.

2. Other consists of prepaids, other non-trade related receivables and an advance payment to supplier.

In accordance with the revenue recognition policy, toll revenues are recognized on the date trips are taken on Highway 407 ETR. Tolls and other charges are recorded in trade receivables as "Unbilled" until invoiced.

12. FINANCIAL INSTRUMENTS (continued)

The provision for doubtful accounts is based principally on historical collection rates and Management's expectation of success rates for collection of overdue accounts by the Ontario Registrar of Motor Vehicles (the "Registrar") through refusing to renew or issue vehicle licence plate permits until outstanding amounts are paid or settled ("Licence Plate Denial") as well as Management's expectation of success rates for collection through collection agencies and legal proceedings. When a licence plate associated with a customer's unpaid 407 ETR account becomes unattached from the vehicle or expired, the Registrar is required to refuse to renew another single vehicle permit issued to the same customer or issue a vehicle permit to that customer. The legislation affording 407 ETR the right to Licence Plate Denial requires that a series of notices be sent to customers with delinquent accounts. This process takes a minimum of 150 days from the date an invoice is sent until a customer is subject to Licence Plate Denial, followed by up to two years before a customer's licence plate is subject to renewal. The Licence Plate Denial process, together with other collection strategies, results in the successful collection of net trade receivables that are more than 151 days past due. The provision for doubtful accounts could materially change and may result in significant changes to trade receivable balances as Management continues to monitor the collection of outstanding 407 ETR charges through the Licence Plate Denial process with the Ontario Ministry of Transportation (the "MTO"), as well as collections through collection agencies and legal proceedings.

In addition to the collection of 407 ETR customers' overdue accounts through the Licence Plate Denial process, Management continues to assign certain delinquent accounts to third party collection agencies utilizing various programs, employ internal collections staff and take legal action when necessary. In conducting collections litigation, 407 ETR may from time to time receive judicial decisions that impact its ability to recover delinquent amounts through civil proceedings and could result in a material change to the provision of overdue accounts.

Management continuously monitors the collection of overdue accounts including the allowance for doubtful accounts. In determining the allowance for doubtful accounts, the Company considers a number of factors affecting the likelihood of collection. In determining the collectability of customer accounts, the Company does not obtain information about the credit quality of customers whose accounts are not overdue or not impaired.

An increase of 1 percent in the weighted-average provision rate would have increased the provision for doubtful accounts by approximately \$1.3 and \$4.2 (2019 - \$3.9 and \$7.0) and decreased net income by approximately \$0.9 and \$3.1 (2019 - \$2.9 and \$5.1) for the three and six month periods ended June 30, 2020 respectively.

The Company is exposed to credit risk with respect to contract receivables in the event of non-payment by customers. The Company manages this risk by dealing with reputable customers with good credit ratings.

Interest Rate Risk

As at June 30, 2020, all long-term debt is fixed rate debt (except for the inflation-linked bonds as described below); therefore, changes in interest rates do not impact interest payments on its current bonds but may impact the fair value of such long-term debt.

The Company also manages this risk by investing its cash and cash equivalents and restricted cash and investments in debt instruments with credit ratings equal to or higher than those required by the Indenture. A decrease of 25 basis points in interest rates would have decreased interest income by approximately \$1.4 and \$2.2 (2019 - \$0.8 and \$1.5) and net income by approximately \$1.1 and \$1.6 (2019 - \$0.6 and \$1.1) for the three and six month periods ended June 30, 2020, respectively.

12. FINANCIAL INSTRUMENTS (continued)

Inflation Risk

The Company is exposed to inflation risk as interest expense and debt service payments relating to RRBs and Senior Bonds, Series 04-A2 are linked to the Consumer Price Index (the "CPI"). An increase of 50 basis points in the CPI would have increased interest expense by approximately \$7.2 (2019 - \$8.7), decreased net income by approximately \$5.3 (2019 - \$6.4) and increased debt service payments by approximately nil and \$0.1 (2019 - \$0.3 and \$0.4) for the three and six month periods ended June 30, 2020, respectively. BEIR is highly volatile and may lead to significant changes in the fair value of Senior Bonds, Series 04-A2 that may not be representative of actual inflation paid or to be paid to the Senior Bonds, Series 04-A2 bondholders. An increase of 10 basis points in the BEIR would have increased interest expense by approximately \$5.1 (2019 - \$5.6) and decreased net income by approximately \$3.7 (2019 - \$4.1) for three and six month periods ended June 30, 2020, respectively. A decrease of 10 basis points in the BEIR would have reduced interest expense by approximately \$5.0 (2019 - \$5.5) and increased net income by approximately \$3.6 (2019 - \$4.0) for the three and six month periods ended June 30, 2020, respectively. This inflation risk is partially mitigated by the Company's right to increase toll rates.

d) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. Cash flow projections are prepared by Management and reviewed by the Board to ensure sufficient continuity of funding. The Company manages its liquidity risk by dispersing the contractual maturity dates of its financial liabilities, thereby ensuring the Company is not exposed to excessive refinancing risk during any given year. Further, the Company maintains an optimal level of liquidity through maximizing cash flows by actively pursuing the collection of its trade receivables and contract receivables, and by controlling the level of operating and capital expenditures. Cash and cash equivalents, short-term investments and restricted cash and investments are invested in highly-liquid interest-bearing investments.

The following are the commitments, contractual maturities and related interest obligations as at June 30, 2020:

14. EXPENSES (continued)

General and administration expenses include public relations, finance, administration, facilities, human resources, business processes, legal, audit and executive costs.

Depreciation and amortization expenses reflect the expense of property, plant and equipment and intangible assets over their respective useful lives. Substantially all of the depreciation and amortization expenses relate to highway operations and systems operations assets.

Total expenses include employee salary and benefits of \$9.2 and \$21.4 (2019 - \$10.5 and \$21.1), of which \$0.3 and \$0.7 (2019 - \$0.3 and \$0.7) relate to short-term benefits of key management personnel for the three and six month periods ended June 30, 2020 respectively. Key management personnel of the Company include the President and Chief Executive Officer and the Chief Financial Officer. Short-term benefits of key management personnel include wages, annual incentives and other benefits. The Company does not provide for share-based payments or other long-term benefits, but does provide post-employment benefits and termination benefits.

15. COMMITMENTS AND CONTINGENCIES

Claims and Contingencies

From time to time, in the ordinary course of business, the Company is a defendant or party to a number of pending or threatened legal actions and proceedings. It is not possible to determine the ultimate outcome of such matters; however, based on all currently available information, Management believes that liabilities, if any, arising from pending litigation will not have a material adverse effect on the financial position or results of operations of the Company.

19. GUARANTEES

In the normal course of business, the Company, including certain of its subsidiaries, enters into agreements that may involve providing certain guarantees or indemnifications to third parties and others. These include, but are not limited to:

a) Director/officer indemnification agreements

The Company entered into indemnification agreements with current and former directors and officers to indemnify them, to the extent permitted by law, against any and all charges, costs, expenses, amounts paid in settlement and damages incurred by the directors and officers as a result of any lawsuit, or any judicial, administrative, or investigative proceeding in which the directors and officers are sued as a result of their service. These indemnification claims will be subject to any statutory or other legal limitation period. The nature of the indemnification agreements prevents Management from making a reasonable estimate of the maximum potential amount the Company could be required to pay counterparties. The Company has purchased directors' and officers' liability insurance.

b) Other indemnification agreements

The Company provides indemnification agreements to counterparties in transactions such as purchase contracts, service agreements, design-build agreements, and licensing agreements. These indemnification agreements require the Company to compensate the counterparties for costs incurred as a result of litigation claims that may be suffered by the counterparty as a consequence of the transaction. The terms of these indemnification agreements will vary based on the contract. The nature of the indemnification agreements prevents Management from making a reasonable estimate of the maximum potential amount the Company may be required to pay to counterparties because such limits are not set out in the agreements with these counterparties. Management attempts to limit its liability in respect of indemnifications provided to third parties in its contractual agreements.

20. SEASONAL NATURE OF THE BUSINESS

The Company's results for the three and six month periods ended June 30, 2020 are not necessarily indicative of the results that may be expected for the full year due to seasonal variations in traffic volumes. The Company has historically experienced a higher volume of travellers on the Highway during the third quarter as a result of leisure and recreational travellers, while the winter months in the first and fourth quarters generally result in lower trip volumes. Operating expenses remain relatively steady throughout the year. The Company's interest expense on the RRBs and Senior Bond, Series 04-A2 is calculated based on changes in the CPI; as such, interest expense in respect of these bonds will fluctuate due to the volatility and seasonal nature of the CPI.

21. COVID-19 PANDEMIC UPDATE

The COVID-19 pandemic and resulting economic contraction has had, and is expected to continue to have, a negative impact on the demand for highway travel in the GTA. Since mid-March of 2020, Highway 407 ETR has experienced significant declines in traffic volume which is having a significant negative impact on the Company's revenues and results of operations. Despite lower revenues, the Company continues to maintain sufficient liquidity to satisfy all of its financial obligations during 2020. Despite this liquidity, if the pandemic continues for a prolonged period of time and as a consequence the timing and pace of economic recovery are longer and slower, the Company may not be able to satisfy certain financial covenants under its master trust indenture and credit agreements, which could restrict interest payments on subordinated debt and dividend payments to shareholders. The COVID-19 pandemic may also impact the future cost of capital as a result of disrupted credit markets or potential credit rating actions in relation to the Company's debt.

21. COVID-19 PANDEMIC UPDATE (continued)

Management continues to analyze the extent of the financial impact of the COVID-19 pandemic, which could be material depending on the scope and duration of the pandemic. While the full duration and scope of the pandemic remain unknown, Management does not believe that the pandemic will have a long-term impact on the financial condition of the Company.
