January 2011

407 ETR continues to be a good choice and we thank you for making the highway FAST, SAFE and RELIABLE.

- 407 ETR customers make an average of 380,000 trips on the highway each and every workday.
- In 2010, more than 110 million trips were taken on 407 ETR - relieving congestion on other highways and local roads.
- 407 ETR has invested over \$1 billion dollars since 1999 to provide an all electronic, open-access, 108 kilometre highway for customers. This investment has kept people and goods moving safely across the GTA, saved everyone time, created jobs and been a magnet for growth. Controlling traffic congestion means reduced CO₂ output from vehicles and that reduces the environmental impact of driving.
